Protections and shrink wrapping materials

A boat maintenance starts with the protection of all surfaces that can be damaged during the transport, wintering or maintenance works.

This process avoids the damaging of any surface that could cost reparations, or other problems. It also gives a professional vision for those who think about it and use them.

Any auxiliary service provided by mechanics, painters, electricians, carpenters, upholsterers, etc. are made in foreign boats.

Nautiel Service S.L *has been taking care and protecting for more than 25 years the yachts surfaces and helping to avoid possible damages during maintenance, refits, painting works, winterise, or transport, on any size of yachts.*

We want to share with other professionals from the yacht industry this catalogue, with all the materials and accessories that we have selected and used during all this years of activity.

Preservation of our environment is one of our concerns. We want to achieve in a closer future a better and sustainable activity with lower impact materials and lower plastic dependence. One of our best ways to reduce pollution is finding reusable and recyclable materials. Despite is not an easy mission, we are on It.

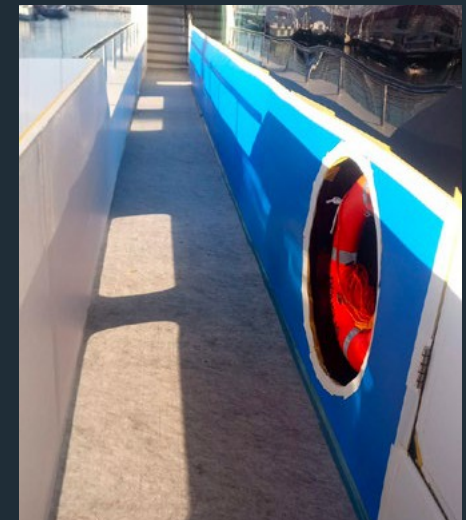

Protections

Card Plastic

Plastic cardboard with a 3.5mm thick air chamber, resistant to impact. Ideal for protections on floors, bulkheads, columns, glass, etc. Light and easy to cut, partially reusable and recyclable if clean or free of other different materials, like masking or rubbing tapes, overspray paint

CPBCI213	Cardplástico CI. 2m x 1m. 3,0mm. Blanco	Sheet

CEC7575	Foam edges protection	75mm x 75mm. 2m
CCAG50	ECO cardboard edges protection	50mm x 50mm. 1,20m

Foam handrail protection

FTG0062	Foam handrail protection	62mm ø / 9mm x 2m
FTG0116	Foam handrail protection	116mm ø / 9mm x 2m

Tapes

Yellow Tape 50m x 48mm

Low residue tape for a great adhesion in surfaces made of plastic, wood, gelcoat, glass, metal, etc. even indoor or outdoor. Slightly waterproof, with UV protection and resistant to high temperatures (80°C). This tape can be up to 30 days leaving no sticky residues behind outdoors and up to 3 months indoor.

CA0002	50m x 48mm	Unit
--------	------------	------

Yellow Tape 2420 3M

Wide range of uses. Very resistant to UV light and high temperatures. Adheres to any surface, interior or exterior, without leaving residue.

CA2420	50m x 50mm	Unit
--------	------------	------

Orange Tesa Tape 4843

Flexible and resistant with great adhesivity and leaving little to none residue on any surface. Resistant to acid substances and chemical products. It can be outdoors up to 2 weeks.

CN43833	33m x 50mm	Unit
---------	------------	------

Tapes

Exterior Grey Tape Performance Plus 3M 8979

Made with a polyethylene layer backed up with an adhesive rubber, it has a unique construction that allows permanent and temporal applications in or outside. It can last up to 6 months leaving no adhesive residue behind and can handle temperatures up to 200°F.

CG8979	50m x 48mm	Unit
--------	------------	------

Exterior White Tape 245S21

White plastic tape, resistant to UV light, humidity and outdoor environment. Great adhesivity; waterproof. Endures up to 12 months outside.

245S21	33m x 48mm	Unit
--------	------------	------

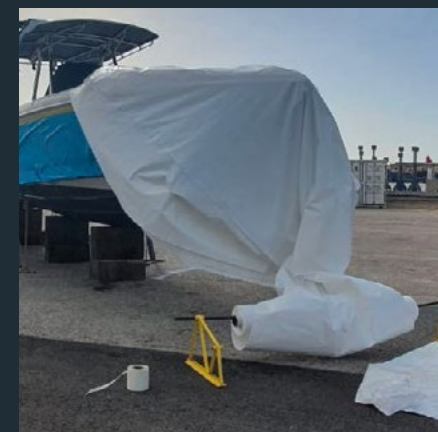

Shrink-wrapping

Shrink-wrapping Plastic

180 microns long plastic rolls. Resistant, flexible and adaptable, it allows to add aeration accessories, vortex, extractors, doors, windows, etc. Easy to repair or patch. Ideal protection for ship transporting or wintering.

Rolls

CPTM40565	Plastic Roll 180 mic.	5 x 65m
CPTM40650	Plastic Roll 180 mic.	6 x 50m
CPTM40850	Plastic Roll 180 mic.	8 x 50m
PNRM41230	Plastic Roll 180 mic.	12 x 30m
CPAM41250	Plastic Roll TCM4 180mic.	12 x 50m
AAB1FR1020	Plastic Roll AAFR 280 mic. Flame Retardant	10 x 20m
TCB1FR1250	Plastic Roll 180 mic. Flame Retardant	12 x 50m
CPTM45340	Plastic Roll Blue 50 mic.	5 x 340m
CRJ50019	Flat Tape Roll	19mm x 500m

Shrink-wrappings

Patch Tape

Essential to patch holes, joint plastics and assure seams. Great effectiveness and hot adherence. Very resistant outdoors and exposed to UV light. Easy to break with hands. We have a wide range of sizes and prices.

CP1033	Patch Tape	33m x 100mm
CP9655	Patch Tape	55m x 96mm
CP0533	Patch Tape	33m x 50mm

Reusable sized wrappings

Light and resistant wintering wrappings. Easy to put and to clean. They last a long time and allow transpiration on the inside. UV light protection, waterproof and can be washed. Low prize, with entrance doors and drains added.

Certifications and quality controls

LANDOLT™ *Protections*

ALLPROTECT Original

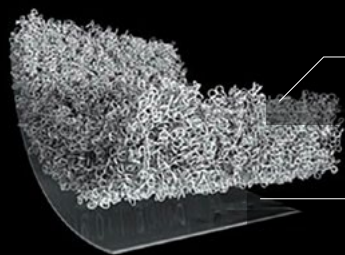

*Safe protection, resistant and very durable, even under heavy mechanic usage. It is the **multifunctional protection material**, which can be used in a versatile way.*

This material with an adhesive property, is one of the toughest ones thanks to its high mechanic protection composition

- High quality protection and security.
- Easy to use both vertical and horizontally.
- Very sticky to any material, no adhesive tape needed.
- Residue and harmful substances free.

Allprotect Structure by LANDOLT®

• Resistant non-woven fabric made with synthetic fibres

• PE adhesive layer that works as a liquid barrier, no residues left behind

APO0125

ALLPROTECT Original

1 x 25m Roll

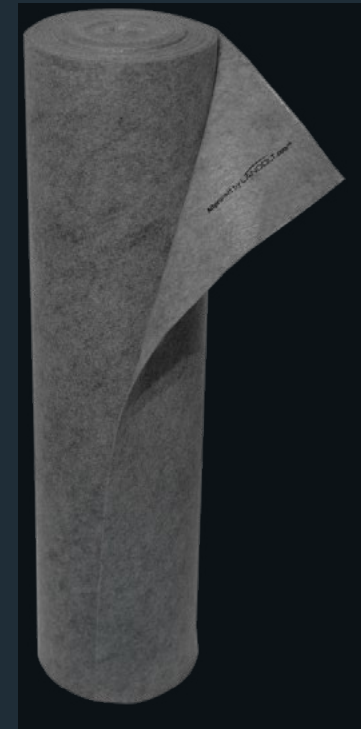

LANDOLT™ *Protections*

ALLPROTECT FR +

This non-woven material, has been developed especially as a **fireproof material**. The ideal combination between high protection effectiveness and the special security requirements compliance.

- Fireproof and ideal for welding works
- Anti-static material, what makes it avoid the creation of static electricity
- Residue free

Allprotect Structure by LANDOLT®

• Resistant non-woven fabric made with synthetic fibres

• PE adhesive layer that works as a liquid barrier, no residues left behind

APFR125

ALL PRO FR Adhesive Flame Retardant

1 x 25m Roll

LANDOLT™ *Protections*

ALLPROTECT Flex

The main property of the design on this non-woven material **great flexibility**, keeping at the same time its adhesive effect, what makes it a great versatile material.

- Great flexibility, adaptable to any surface, irregular forms, corners, etc.
- Provided with a protective fleece, adaptable to any angle without losing its adhesive effects.
- Residue free.

FLOORLINER™ Original

It is a non-woven fabric, multifunctional and mechanically resistant, **especially dens and made with waterproof layers** especially used on the toughest demands.

It offers an ideal protection on floors, stairs, even on the hardest conditions. Its exclusive Opticoat™ helps to its colocation and its reusability.

- Anti-slip base due to its Opticoat™ layer.
- No residues left on deck surfaces.
- Reusable and adequate for vacuum scrubbing and cleaning.
- Harmful substances free.

FLO0150	Floorliner Original	1 x 50m Roll
---------	---------------------	--------------

LANDOLT™ *Protections*

FLOORLINER™ FR+

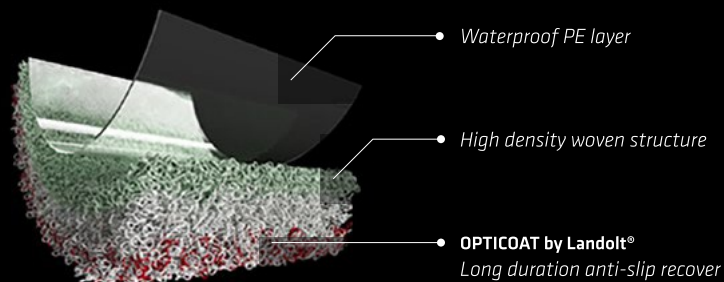

Great for usages that require a **fireproof function**. Flame retardant according to Bfl s1 / DIN EN 13501-1 and also counts with the brand certificate for being used on the international maritime industry.

Floorliner™ FR is the perfect combination of effective floor protection with a strict standard compliance anyplace where a fire protection is requested.

- Anti-slip base due to its Opticoat™ layer.
- Complies with the International Maritime Organization (IMO) standards.

LANDOLT™ *Protections*

FLOORLINER™ Vapor

This protection material **allows breathing and evaporation** of the possible moisture or vapors of the covered materials. As the other Floorliner™ products, this one is covered with an adhesive anti-slip Opticoat™ layer that guarantees the ideal grip and safe working conditions.

- Protects materials and allows the best moisture and dissolvent evaporation.
- With an adhesive Opticoat™ layer.
- No residues left on deck surfaces.

FLVP150	Floorliner Vapor	1 x 50m Roll
---------	------------------	--------------

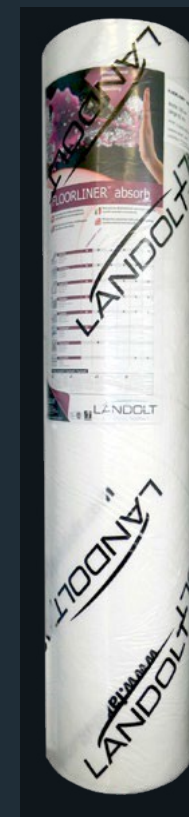

FLOORLINER™ Absorb

Non-woven fabric material, same as Floorliner original or Floorliner Vapor, but unlike these, its upper layer is super absorbent and its lower layer is waterproof avoiding the liquids passing through.

It has a great capacity of absorption of liquids (oil, water, paints, etc) and also retains the dirt over.

It is essential in refit, construction, or maintenance tasks. Protect any surface from accidental spills. It is non-slip, washable and reusable.
